President at Work on Railroad Message

By International News Service.

Washington, Dec. 12.—President Wilson worked today on his message to Congress on the railroad situation. It is considered probable that the message may go to Congress early next week.

The President is better than at any time since his illness, Dr. Grayson announced this afternoon following an examination of the President by Dr. F. X. Derum of Philadelphia. The President is now caring for his own personal needs and is able to walk about.

New York, Dec. 13.—Clinton T. Brainard, who is one of the most active members of the extraordinary grand jury and president of Harper & Brothers, was yesterday held for trial in \$500 bail for the sale of a "filthy and obscene book entitled, 'Madeleine—an Autobiography.'" Brainard represents the J. P. Morgan interests in the control of Harper & Brothers.

Apparently he failed to enjoy the services which took him from the Grand Jury expedition on the trail of the "overshadowing crime" and placed him on a path of more personal import.

Despite Brainard's "alibi" as offered through astute counsel in the Washington Heights Police Court, Magistrate Simpson refused to discharge the grand jurymen-publielist. In holding Brainard for trial in Special Sessions the magistrate handed

More than 300 pretty girls are selling tags in the down-town shopping district of Boston today in aid of the Boston American Christmas Basket Fund which supplies whole home dinners for the needy at Thanksgiving.

The smiling faces of these come girls greeted passengers as they poured out of North and South stations, all the Subway stations and throughout the shopping district.

DEMANDS MADE BY LABOR

Leaders in Conference Issue
"Magna Charta," Condemn
Operators and Courts

By International News Service.
Washington, Dec. 13.—Labor's "magna charta," drawn by the executive council of the American Federation of Labor, was presented today to the labor conference, at which most of the labor leaders of the nation are present.

The "magna carta" is a single page document, accepted as labor's possession in the affairs of the nation, but a reference to the League of Nations shows the conference into a heated debate over the peace treaty. The committee's points in the "magna carta" were as follows:

"The coal strike was caused by the 'autocracy of the operators'—the miners' hope for a change of the mine owners' Congress was asked to declare against the 'usurpation of the power of the people by their courts.' The 'magna carta' was a 'revolution weapon,' which gives 'the voice of the people' to be overruled."

ARMENIAN MISSION

Germans Forge U. S. Passports for Use in Europe

Berlin, Dec. 13.—A wholesale plot to force United States passport holders and other Germans to travel through Europe has just been discovered here. The deception in signatures was detected by the French Consul, M. Aubrun.

Papers bearing the name of the Spanish Minister, Senor Delgado, who is in charge of American affairs in Berlin, were passing through the hands of the French Consul when he became suspicious of the situation. He retained the documents, requesting the owner of them to return the next day. The following day they came and the man was immediately called to put in an appearance. However, the police were unable to trace him through the photo of which was attached to the passport.

Majority of big department stores open at 9 a. m., close at 6.

STORES RETURN TO
USUAL HOURS

All restrictions on the use of coal in New England were lifted today, according to a statement by James J. Storow to the local Fuel Administrators.

Mr. Storrow said that while his information was not quite official, he felt he should authorize the administrators to notify their communities that the restrictions were removed.

At the time he warned coal consumers that there might be a shortage of coal in January and February, and advised economy and care.

The statement was as follows:

"I am informed that every restriction as to length of hours of heat, light and power has been removed today by Washington. This is not quite official, but I feel that I ought to authorize you to advise the various communities that every restriction relating to conservation of fuel has now been removed.

"I am very glad that the Railroad Administration feels that it is safe to remove these restrictions so soon after the strike, and I still feel that New England may be short of steam coal in January and February, and so I advise all steam plants to economize and go carefully.

TWO AMERICAN CAPTURED BY VILLISTAS

Eight Mexican residents of Musquiz and one Englishman were taken and paid for \$5,000 ransom each. Among the Mexicans taken was Don Miguel Pena, said to be one of the wealthiest ranchers in Mexico. According to reports received here, Don Pena's wife escaped when the Villistas entered their home. She is said to have made her way to Rosita, where she reported the capture of her husband and the Americans.

The Villista troops left Muzquiz on Friday and are reported to have gone in the direction of Chihuahua. Mexican Consul G. M. Seguin announced today.

Several carloads of railroad ties were sent from here today to be used in repairing railroad tracks destroyed by Villista troops to hinder movements of the Federal soldiers.

MAN WHO SHOT TWO IS HELD IN \$10,000

Clara Kimball Young's first big special production, "Eyes of Youth," will begin its second week at the Waldorf Theatre, Tremont and Berkeley streets, on Monday. This wonderful picture has created a sensation in Boston, and capacity audiences have been the rule at the big theatre since its first showing. The first show- ing of "Eyes of Youth" in Boston and it is being presented exclusively at the Waldorf Theatre. Miss Young runs the gamut of emotion from the first state schoolma'am and from social butterfly to an out- cast on the streets of New York. She has one of the best parts in her career while her supporting cast includes—Sally, Shirley, and Hughes; Pauline Starke, Vincent Serrano, William Courtleigh, Lionel Belmore, Ralph Laws, Edmund Lowe, Norman Selby, Sam Sothorn and Edward

With the reputation of being the thriller of all thrillers, and having played an entire theatrical year at the Lyric Theatre, New York, Roland West's mystery play is coming to the Majestic Theatre on Monday (December 23) with a splendid cast of players, headed by George Probert. In the character of V. Crompton, the man who makes himself invisible with the aid of a mysterious purple ray, an invention of the author.

the throat of a society girl. It is taken by unseen hands, right before the eyes of the audience. Two detectives stand as though petrified, with drawn revolvers when a weird purple glow wafts past them, emitting at times the glitter of the jewels. It is, of course, the purple ray with which V. Cromport makes himself invisible. A safe robbery is committed in much the same way, with following scene calculated to provide one hundred and fifty superdynamic thrills in one hundred and fifty minutes.

The program which Mrs. Marguerite Horton has prepared for next Tuesday's recital of new American and French piano music, at Steinert Hall is refreshing. Several pieces have played here before and their rightful place therein. Mr. Clayton John heads the program with his Introduction and Fugue in E minor; Mrs. Horton's own "Suite Helvétique" which he played from manuscript; Carpenter's "Polonaise Americaine" is followed by Mrs. Beach's "Preludes"; Reginald de Koven's prelude in E flat major; "Monnaie" and "Fantasia" by Wagner; and "If and not then."

An attraction with an unusual interest is announced by the management of the Maiden Auditorium, for the coming week, in a revival of the soul stirring play, "Camille." No play produced on the American stage has the deep, dense, absorbing, heart appeal of "Camille." The story is familiar to most playgoers and compelling sustaining interest from first to last. While the play was originally produced years ago, the story is even new and of vital interest to every human being. The title role will be played by Miss Adelyn Bushnell.

A spectacular program of popular film stars has been arranged for the coming week at Loew's Columbia Theatre, Washington and Mott streets, with high class vaudeville on Tuesday and Saturday evening. Monday, Corrine Griffith in "Bramble Bush" and Albert Ray in "Vagabond Luck" will be featured.

IF NOT STRIKES—WHAT?

JOHN A. FITCH, FORD HALL MEETING, SUNDAY, DEC. 14, 7:30 P. M. Come and Hear the People Ask Questions. Includes text about strikes and social issues.

Statement Made By Agent of the Assabet Mills, Maynard

The statement that the strike at the Assabet Mills was because the Company has refused to discharge men who are "Reds," or undesirable, is not justified by the facts. The real object of this strike was to compel the Company to discharge former members of the United Textile Workers Union who had lapsed for non-payment of dues or to influence these lapsed members to pay up and apply for reinstatement. Nothing was said about their being "Reds," or undesirable.

An Ambition That Never Rests

Copyright, 1919, Star Company

A political cartoon by Winsor McCay. A man in a military uniform, wearing a cap and a sash that says 'GENERAL', is shown from the side, reaching up to place a large stone on top of a stack. The stack consists of seven stones, each with a label. From bottom to top, the labels are: 'CONQUERED RESOURCES', 'GREAT ARMY', 'GREAT NAVY', 'RESOURCES AND POPULATION OF SHANTUNG', 'DUPLOITY OF THE PEACE COUNCIL', 'ALLIANCE WITH ENGLAND', and 'FUTURE NAVAL PROGRAM'. At the top of the stack, a circular sign reads 'MASTERY OF THE PACIFIC AND WESTERN WORLD'. The background is a simple landscape with a hill and a sky with clouds. The artist's signature 'WINSOR MCCAY' is in the bottom right corner.

"The public is absurdly shortsighted in its policy toward Boston's teachers," declares Thomas F. Anderson, secretary of the New England Shoe and Leather Association. "No manager would think of keeping the salaries of his executives down to the lowest possible level and expect to make his business a success. Let us give our teachers all they are worth, even if we have to cut out a few of the non-essentials."
